

# Heart ... going through a stegosaurus

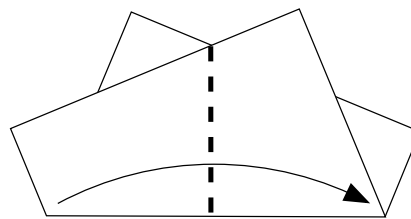

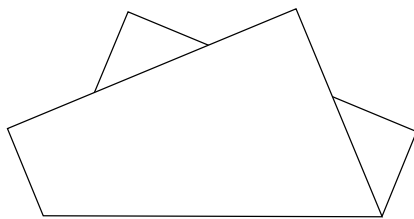

Roberto Gretter, summer 2001

use a square, red on both sides

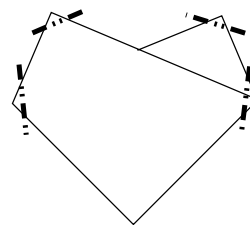

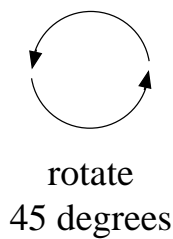

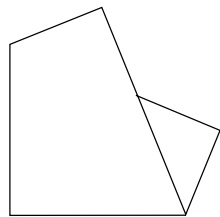

1. optional pre-crease

2. bisect

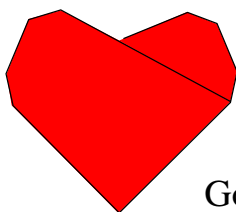

3. the shrewd origamist  
will surely recognize  
Joseph Wu's stegosaurus...

4. fold in half

5. almost at the end...

6. round with mountain folds

Done!!  
Good luck..

Post scriptum: after a while, I discovered that  
Jeremy Shafer included in his book a model pretty  
identical to this (except for color and name :-)  
also he mentions the stegosaurus! Evviva!!!
